

8 mm secure glass sauna door in clear 90 x 190 pine frame

Product description:

8mm dry glass sauna door in pine frame

The perimeter of the door is insulated with a silicone-based seal. They are carried out in account of the standards and specificities required for optimal and secure operation.

The handles are made of wood

The glass doors at the entrance to the saunas bring brightness to the cabin as well as a sense of space

Doors can open to the left or right. It is important to keep the space about 5 to 6 cm between the bottom of the door and the ground to allow for air renewal

The chassis should not be installed directly on the ground

The door is delivered in a cardboard, complete, mounted, with its accessories and assembly instructions

Technical features:

Dimensions: 90 x 190 cm

Passage: 82 cm

Weight: 30 Kg

Materials: Solid pine, 8 mm securitite tempered glass

3-year warranty
