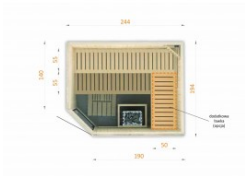
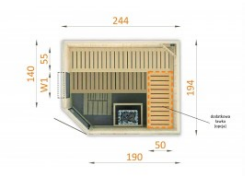
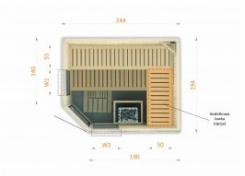
Corner sauna cabin 244x194x199 with stove with remote control







Reference: ANG2520EW0
EAN13: 3700830430189

Suitable for small spaces in the house. The sauna is finished with Scandinavian spruce wood (interior and exterior walls). Benches, backrests (optional), headrest, stove cover and lighting are made of linden wood. The doors are made of tempered glass with a thickness of 8 mm and 550 mm wide in graphite with a vertical handle.

Our offer includes Finnish saunas of different sizes and shapes (rectangular, corner, rounded), respectively designed for one, two, three or four people. Thanks to this, you can easily adapt the chosen solution to the space in the house you have available for installing the sauna. The individual models are dedicated to specific stoves with the right power, ensuring the proper functioning of the sauna and the comfort of its use.
