Stainless Steel Round Ventilation Grille 100mm with desineo Anti-Insect Grille for all humid environments hammam bathroom

Opt for our round stainless steel ventilation grille, designed with superior quality 304 stainless steel. Not only functional, but also aesthetic, it brings a decorative touch to your space. Featuring a windproof and waterproof design, this ventilation grill is equipped with a dome cover to ensure optimal protection against external elements.

In addition, our ventilation device is equipped with an anti-insect grille and shutters, guaranteeing effective protection against insects, mice and birds. Thermal insect netting covers the ventilation holes for complete peace of mind.

Versatile, our exhaust hood can be used for connecting pipes of different sizes. Its integrated bracket allows for easy fixing in the pipe, while the screws and pins provided make assembly easy.

Whether in bathrooms, kitchens or heating chimneys, our stainless steel exhaust hood is the ideal

option to ensure optimal ventilation. In addition, with its integrated insect screen, it prevents small animals from entering the exhaust system.

The supply includes a stainless steel exhaust hood, accompanied by screws and pins for easy installation. The size of the exhaust hood is 100mm, providing a versatile solution for various ventilation applications.
