Velvet Spa Elynia 250 ml - slimming product

The essential oils contained in camylle slimming range affect your body through the skin and mucous membranes.

You will find, in a mesmerizing composition:

- Mint for its digestive properties
- Orange for its tissue Rejuvenator action
- Lavender for its healing properties
- Rosemary for its entirides properties
- Sage for its diuretic properties its anticellulitique action
- Juniper for its draining action and slimming

These essential oils can well to irrigate and nourish the tissues so that the skin regains its elasticity. Associated with the beneficial action of Sauna Bath, steam room or whirlpool, they will bring visible improvements to the structure of the skin.

The pleasure of a bath spa with essential oils

The Spa has this special that the water is recycled and filtered, as in a swimming pool. We must therefore remain vigilant when you pour a any product. Indeed, an unsuitable product would immediately lead to trouble the water, plug filters, cause foaming reactions, etc...

VELVET of CAMYLLE SPA has been designed to blend perfectly with the water without interacting on the disinfection system

Essential oils are solubilisées in a cosmetic alcohol solution specially developed by Camylle laboratories, which makes the volatile product 100%. No trace remains so in the spa, the filter cartridges will not clog and will not gum up the disinfection system.

VELVET of CAMYLLE SPA today is considered by the manufacturers and distributors of spas, best-known as a reference and enriches this moment of Exchange by adding a subtle perfume and all the benefits of essential oils of plants.

Use:

Diluted at the rate of two to three caps by Spa Bath (20 to 30 ml), directly in the water of the spa (for a spa with an average capacity of 1500 litres) it brings an extra dimension to the bath with the healing power of essential oils.
