

Strip LED in aluminium 1 m white hot IP65 + offered transformer!

Product description:

Strip LED in aluminium 1 m white hot IP65 + offered transformer!

Suitable for lighting of shop windows, shops, cornices, kitchens, bathrooms, hammams, shelves, outdoor, indirect lighting

Widely used in decoration, the low emission of heat emanating from this Led scale allows it to be installed everywhere

Fixing facilitated by the presence of holes at both ends

The pre-cable connectors facilitate the editing of several strips in series on the same transformer. Add the powers of strips to choose the

proper transformer (for 2 strips consuming 10w, choose a minimum of 20w transformer)
