

Bunch of frame 5cm x 45 m for the junctions of panels XPS fiberglass

Product description:

Bunch of frame fiberglass 45 m x 5 cm

The application is done on all vertical and horizontal panels junctions as well as all the screw heads.

The tape is adhesive for easy application!

Once the raised frame Strip, apply a coating of type under layer of sealing. (see our mortar Sikatop 121)

Any questions, feel free to contact us!

Using advice: Strip reinforcing fiberglass for the realization of the joints of the panels, apply a coating of sub waterproof layer once the tape has been asked.
