

# Pump Peristaltic desineo perfume

## **Product description:**

Pump Peristaltic perfume Desineo

Discover the pump to perfume desineo! A pump created specifically for aromatherapy of your steam room!

Easily stream your aromatherapy scents

Thanks a Desineo perfume pump you can easily broadcast your aromatherapy scents.

Its installation is very simple and its very effective dissemination because it works thanks to a Peristaltic movement (a movement creating a depression)

Easy installation!

Very simple installation and start-up sound. The pump is supplied with a fitting with a claplet valve to be placed directly on the T (after your steam generator steam output).

An another fitting with check valve is provided. Plunge directly (with the hose) into your bottle of aromatherapy and connect the tube your pump has.

(do not forget to connect the circuit to a control

button (or switch) in order to control its activation)
