

Eucalyptus 250 ml aromatherapy for Spa hot tub spa Velvet

Product description:

Velvet spa CAMYLLE Eucalyptus 250ml to the virtues slimming

Find the benefit and the scent of eucalyptus!
These essential oils allow to irrigate and nourish the tissues so that the skin regains its elasticity. Associated with the beneficial action of Sauna Bath, steam room or whirlpool, they will bring visible improvements to the structure of the skin.

The pleasure of a bath spa with essential oils

The SPA has this special that the water is recycled and filtered, as in a swimming pool. VELVET of CAMYLLE SPA has been designed to blend perfectly with the water without interacting on the disinfection system.

Essential oils are solubilisées in a solution of alcohol of Cosmetology specifically developed by Camylle laboratories, which makes the volatile product 100%.

No trace remains in the spa, the filter cartridges will not clog and will not gum up the disinfection system. Diluted at the rate of two to three caps by Spa Bath (20 to 30 ml), he brings an extra dimension to the bath with the healing power of essential oils.

VELVET of CAMYLLE SPA today is considered by the manufacturers and distributors of spas, best-known as a reference which enriches this moment of Exchange by adding a subtle perfume and all the benefits of essential oils of plants.

Use:

perfectly soluble in water. Pour 2 to 3 caps of VELVET SPA directly in the water of the spa (for a spa with an average capacity of 1500 litres).
