Reference: euca-menthe  
EAN13: 3797302802766

Mist hammam Eucalyptus Mint - respiratory and refreshing 250 ml or 1 liter

### Eucalyptus

The essential oils of eucalyptus are without doubt the most used in saunas and hammams. The power of the scent of eucalyptus gives an impression of ultimate freshness and vitality. Particularly indicated in the treatment of respiratory conditions, this plant is used in pharmaceutical compositions for his many virtues anti-inflammatory and anti-infectious.

### Mint

The essential oil is refreshing by excellence. In many cultures, the Mint is used to flavour dishes and drinks, but also for its stimulating and aphrodisiac properties. Of all time, the Mint was used as tonic, to help the digestion as well as treatment for colds, cough and fever.
